

Dropbox Download Instructions

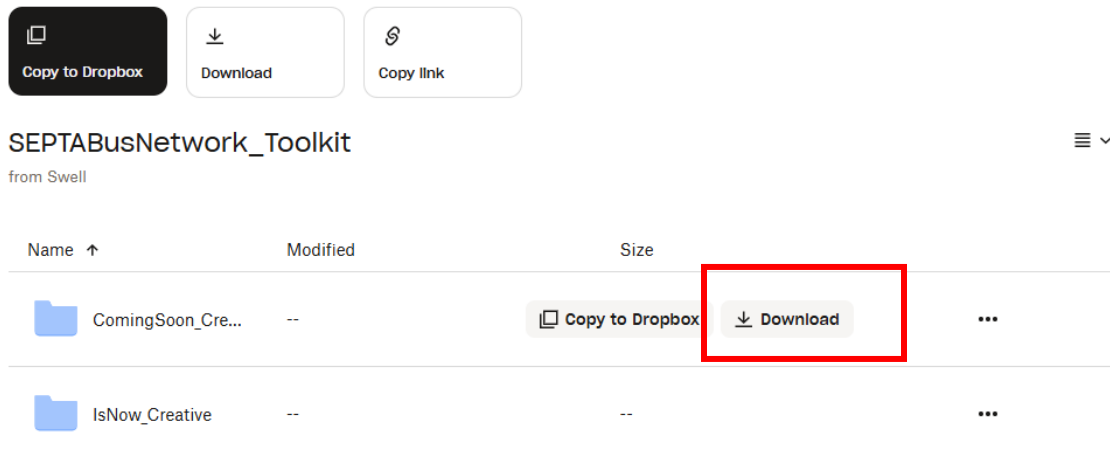

On the main screen, you will find two folders. If you want to download both folders at once, press the large download button at the top.

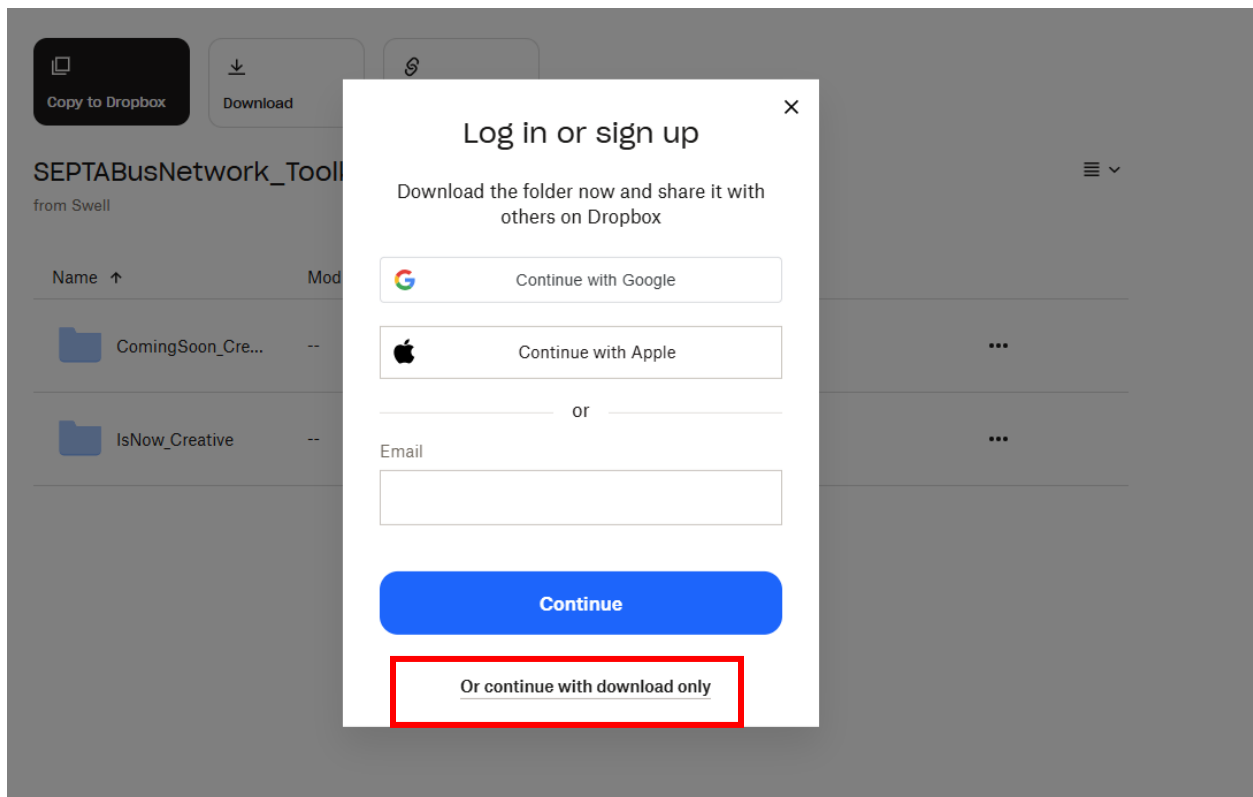

A pop-up window will appear for login or sign-up, but you can simply click the link to download only. All files will be saved in your computer's download folder.

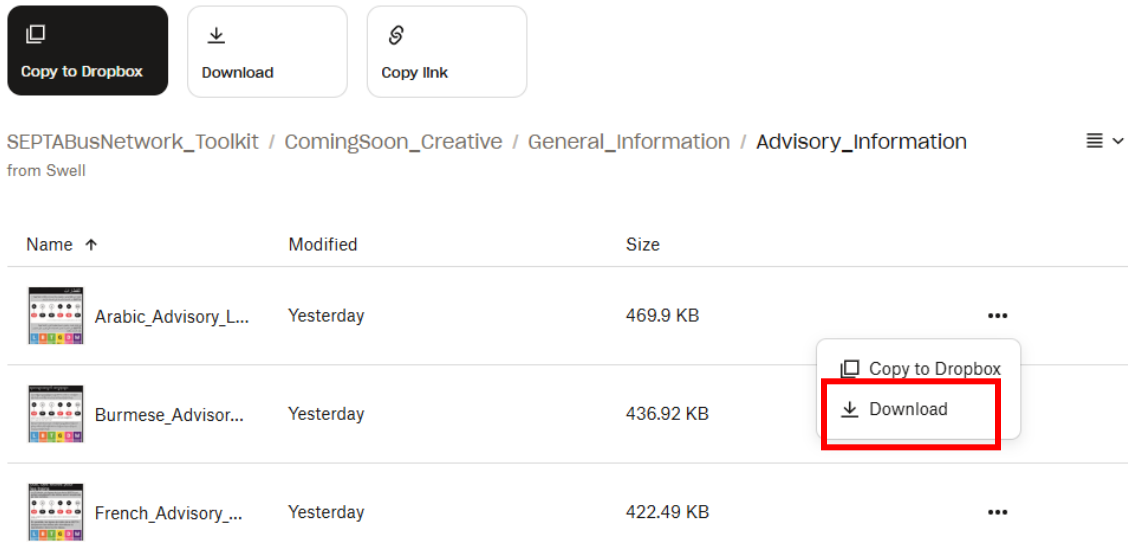

To download an entire folder at once, simply hover over the folder and press the small download button.

A pop-up window will appear for login or sign-up, but you can simply click the link to download only. All files will be saved in your computer's download folder.

To download an individual file, simply open the folder and select the document you would like to download. Click the three dots and then select download.

A pop-up window will appear for login or sign-up, but you can simply click the link to download only. All files will be saved in your computer's download folder.
