INDEPENDENT AUDITOR'S REPORT

To the Council Members of Plymouth Township
Plymouth Meeting, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Plymouth Township, Pennsylvania, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Plymouth Township, Pennsylvania, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparisons for the General Fund and the Capital Reserve Fund, Highway Aid Fund, and Health and Welfare Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 1 to the financial statements, beginning for the year ended December 31, 2015, Plymouth Township adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. To comply with GASB Statements No. 68 and No. 71, the net position of the governmental activities has been restated as of January 1, 2015 to include the actuarially-determined net pension liability as of December 31, 2014. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 13 and the supplemental pension schedules on pages 63 to 67 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Plymouth Township, Pennsylvania's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The other supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and

other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

PLYMOUTH TOWNSHIP
Management's Discussion and Analysis

Our discussion and analysis of Plymouth Township's financial performance provides an overview of the Township's financial activities for the fiscal year ended December 31, 2015. Please read it in conjunction with the Township's financial statements, which begin on page 15.

FINANCIAL HIGHLIGHTS

- The Township continues to report adequate *unrestricted net position balances* for both governmental activities and business-type activities.
- The Township is reporting a General Fund *budgetary fund balance* of \$8.31 million.
- The Township has no outstanding bonded debt.
- Total net position decreased by approximately \$5.81 million during fiscal 2015. This is primarily attributable to: 1) depreciation expense recognized for accounting purposes exceeded capital expenditures by \$492,890 2) an accrued liability for post-retirement health care and pensions was recorded in the amount of \$2.18 million 3) a net use of Capital Reserve fund balance of \$2.17 million.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 15 and 16) provide information about the activities of the Township as a whole and present a longer-term view of the Township's finances. Fund financial statements start on page 17. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Township's operations in more detail than the government-wide statements by providing information about the Township's most significant funds. The remaining statements provide financial information about activities for which the Township acts solely as a trustee or agent for the benefit of those outside of the government.

Reporting the Township as a Whole

The Statement of Net Position and the Statement of Activities

Our analysis of the Township as a whole begins on page 8. One of the most important questions asked about the Township's finances is, "Is the Township as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the Township as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the

PLYMOUTH TOWNSHIP
Management's Discussion and Analysis

current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Township's net position and changes in net position. You can think of the Township's net position – the difference between assets and liabilities – as one way to measure the Township's financial health, or financial position. Over time, increases or decreases in the Township's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, however, such as changes in the Township's tax base and the condition of the Township's infrastructure, to assess the overall health of the Township.

In the Statement of Net Position and the Statement of Activities, we divide the Township into three kinds of activities:

- Governmental activities – Most of the Township's basic services are reported here, including general administration, public safety, public works, and parks and recreation. Property taxes, the earned income tax, and business taxes finance most of these activities.
- Business-type activities – The Township charges a fee to customers to help it cover all or most of the cost of certain services it provides. The Township's sewer system and Community Center are reported here.
- Component units – The Township includes three separate legal entities in its report, Harmonville Fire Company, Plymouth Fire Company, and the Plymouth Township Parks Recreation and Facilities Fund (a 501(c)(3) nonprofit organization). Although legally separate, these component units are important because the Township is financially accountable for them.

Reporting the Township's Most Significant Funds

Fund Financial Statements

Our analysis of the Township's major funds begins on page 11. The fund financial statements begin on page 17 and provide detailed information about the most significant funds – not the Township as a whole. Plymouth Township Council establishes funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities. The Township's two kinds of funds – governmental and proprietary – use different accounting approaches.

- Governmental funds – Most of the Township's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Township's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs. We describe the differences between governmental activities (reported in the Statement of Net Position

PLYMOUTH TOWNSHIP
Management's Discussion and Analysis

and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements.

- Proprietary funds – When the Township charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities.

The Township as Trustee

Reporting the Township's Fiduciary Responsibilities

The Township is the trustee, or fiduciary, for its employees' pension funds, post-retirement healthcare fund, and the deferred compensation fund. Because of trust agreements and legal restrictions, these funds can only be used for the designated beneficiaries. All of the Township's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on pages 27 and 28. We exclude these activities from the Township's other financial statements because the Township cannot use these assets to finance its operations. The Township is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

PLYMOUTH TOWNSHIP
Management's Discussion and Analysis

The Township has a significant investment in *capital assets* for both its governmental and business-type activities. Also, the Township is reporting a balance of *unrestricted net position* – the portion of resources that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements. For its governmental and business-type activities, *unrestricted net position* represents 21% and 49% respectively of the annual operating expenses for those activities.

PLYMOUTH TOWNSHIP
Management's Discussion and Analysis

Governmental Activities

For governmental activities, there was a \$5.13 million decrease in net position during fiscal 2015. This is attributable to several factors. Depreciation expense recognized for governmental activities exceeded capital expenditures by \$492,890. In addition, there was a net use of Capital Reserve fund balance of \$2.17 million. Net assets were also decreased by a Governmental Funds accrual for post-retirement health care and pension costs of \$2.18 million.

The cost of all governmental activities this year was \$28.3 million. However, as shown in the Statement of Activities on page 16, the amount our taxpayers ultimately financed for these activities through Township taxes was \$23.9 million because some of the cost was paid by those who directly benefited from the programs (\$3.2 million) or by other governments and organizations that subsidized certain programs with grants and contributions (\$1.2 million). Overall, the Township's governmental program revenues, including intergovernmental aid and fees for services, amounted to \$4.4 million in fiscal 2015. The Township paid for the remaining 'public benefit' portion of governmental activities with \$18.8 million in taxes and other revenue, such as interest and unrestricted grants.

Table 3 presents the cost of each of the Township's largest programs as well as each program's *net cost* (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the Township's taxpayers by each of these functions.

**Table 3

Business Activities

For business-type activities, net position decreased during fiscal 2015 by \$672,430. The aim of the business activities is that services be priced to cover costs. Revenue from sewer activities was \$127,248 more than costs primarily because quarterly sewer rates were set slightly higher than the cost of running the system. Revenue from Community Center activities was \$521,852 less than costs primarily because membership rates are not structured to recover depreciation. Overall, business-type activities generated revenue of approximately \$4.8 million and expenses of approximately \$5.2 million. There were other miscellaneous amounts recorded for interest income and fund transfers which resulted in net additional cost of \$277,826.

PLYMOUTH TOWNSHIP
Management's Discussion and Analysis

THE TOWNSHIP'S FUNDS

As the Township completed the fiscal year, its governmental funds (as presented in the balance sheet on page 17) reported a combined fund balance of \$20.1 million which is a decrease of \$2.2 million from last year's total of \$22.3 million. As noted on page 18, the Capital Reserve, Highway Aid and Health and Welfare funds reported decreases in fund balance of \$2,174,833, \$27,015 and \$101,857, respectively. The fund balance of the General Fund increased by \$120,756.

General Fund Budgetary Highlights

The 2015 budget, as adopted, did not require any subsequent changes by Township Council. The General Fund Budgetary Comparison Statement on page 20 reflects that the Township ended fiscal 2015 with a budgetary fund balance of approximately \$8.31 million of which \$6.25 million was in the form of cash (page 17), the balance consisting mostly of taxes receivable.

There were some significant variations between budgeted and actual amounts for 2015. For the purpose of discussing budget variances, 'significant' variations will be considered those where the actual expenditure or revenue for a line item differs from the budget by \$100,000 or more.

Overall, revenue was better than projected in several areas resulting in a positive variance of \$1,485,988. This is primarily a result of the fact that 'Earned Income Tax' collections, which are closely tied to the performance of the national economy, grew significantly from the prior year. 'Earned Income Tax' was \$699,015 more than budgeted. 'Business Privilege Tax' collections were \$129,943 less than budgeted because our budget anticipated a greater growth of the service sector within the Township than what actually occurred. 'Real Estate Transfer Tax' was \$263,342 more than budgeted due to the sale of several large commercial properties in the Township. Revenue from the 'Solid Waste Disposal Tax' was \$470,066 more than budgeted. After the dissolution of the Waste System Authority of Eastern Montgomery County in 2015, we had anticipated lower tonnage at the local trash to steam plant from which we receive \$2 per ton. However, the plant was able to find replacement customers for the local governments it lost in Montgomery County. 'Charges for Services' were \$100,374 higher than budgeted due to increased demand for building permit inspection services. There were some other positive and negative revenue variances, none of which exceeded \$100,000.

Overall, actual expenditures in 2015 for the General Fund were \$622,201 million more than the original budget. 'Transfers to Other Funds' were \$500,000 more than budgeted because of a year-end transfer to the Capital Fund which was not included in the original budget. Under 'Administration', expenditures were \$197,000 more than budgeted because of the unanticipated need to purchase a large computer server and power back up and higher than expected insurance claim deductibles. Under 'Tax Collection', expenditures were \$174,658 more than budgeted due to higher than anticipated real estate tax refunds issued as a result of assessment appeals. Under 'Police Protection', expenditures were \$110,646 less than budgeted due to temporarily unfilled positions and underspending in numerous other budget categories. There were some other positive and negative expenditure variances, none of which exceeded \$100,000.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2015, the Township had \$37.7 million invested in a broad range of capital assets including police and public works equipment, municipal buildings and land, park facilities, roads, bridges, sanitary sewers, and storm sewers. This 2015 net asset amount represents a net decrease of \$0.9 million, or 2.3%, compared to the previous year. The decrease was caused primarily by the accounting recognition of a full year of depreciation on Township assets.

Table 4
Capital Assets at Year-end
(Net of depreciation, in millions)

Totals	\$25.8	\$26.4	\$11.9	\$12.2	\$37.7	\$38.6

The Township expended \$2,438,275 to acquire and construct capital assets during 2015. Capital expenditures were made to purchase police and public works vehicles, to construct and improve recreational facilities, for intersection improvements and street paving, and for replacement of sanitary sewer infrastructure.

The Township's fiscal 2016 capital budget calls for \$5.12 million in capital expenditures. The bulk of the expenditures will be for intersection improvements, upgrades to Township buildings and mechanical systems, sanitary sewer projects, street paving, and storm water projects. The Township has no plans to issue debt to finance any capital projects. Projects will be financed from monies previously reserved in the Capital Fund. More detailed information about the Township's capital assets is presented in the Notes to the Basic Financial Statements.

PLYMOUTH TOWNSHIP
Management's Discussion and Analysis

Debt, Pension and Postemployment Benefit Obligations

At December 31, 2015, the Township had no outstanding bonded debt. The last remaining bond issue was redeemed in full during fiscal year 2004.

The Township has a long-term liability for accrued employee leave time amounting to \$328,343.

The Township has also recorded a liability in the Statement of Net Position for other postemployment benefits in the amount of \$12,828,801. This is an actuarially calculated number representing the cost of postemployment health care benefits that should have been funded since the implementation of Governmental Accounting Standards Board Statement 45 but were not. As of December 31, 2014, the most recent actuarial valuation date, the total accrued liability for benefits was \$38,370,532, the market value of assets in the Post-Retirement Health Care Trust Fund was \$18,857,957 and the unfunded actuarial accrued liability was \$19,512,575. In 2015, the Township made a contribution of \$1,109,008 toward the cost of postretirement healthcare benefits for retirees.

The Township has reported a 'Net Pension Liability' in the amount of \$4,116,595.

More detailed information about the Township's long-term liabilities is presented in the Notes to the Basic Financial Statements.

ECONOMIC FACTORS AND THE 2016 BUDGETS AND RATES

The Township's elected and appointed officials considered many factors when setting the fiscal year 2016 budget. One of those factors was the economy. Because the national economy is continuing to recover from a period of sluggish growth, business tax revenues for the Township were expected to remain relatively flat. Inflation was expected to be in the 2.0% to 2.5% range and interest rates were expected to remain at historically low levels during 2016.

These indicators were taken into account when adopting the General Fund budget for 2016. Overall, General Fund revenue was estimated at \$22.7 million, which represents a \$1.6 million increase from the amount budgeted for 2015. Revenue from the Real Estate Tax is expected to increase only slightly as receipts generated from new construction are being offset by a large volume of assessment appeals. Earned Income Tax collections should continue to grow and the amount budgeted was increased by \$775,000 for 2016. Business taxes collections were anticipated to decrease slightly. The estimate of Mercantile Tax revenue for 2016 was decreased by \$83,800 and the estimate of Business Privilege Tax revenue for 2016 was decreased by \$77,000 from the prior year budget. The Township expects to earn interest of only 0.25% to 0.85% on its short-term and medium-term investments and the amount budgeted for Interest Earnings for 2016 reflects this. Revenue from all other revenue sources for 2016 is expected to be roughly the same as amounts budgeted in 2015.

Budgeted General Fund expenditures for 2016 increased by \$1.1 million from the amount budgeted in the prior year. The increase is the result of 1) filling several previously vacant positions 2) contractual salary increases for employees and 3) rising health care and pension costs. The Township has added no major new programs or initiatives to the 2016 budget.

PLYMOUTH TOWNSHIP
Management's Discussion and Analysis

As for the Township's business-type activities, we expect that the 2016 results will be consistent with the prior years. For the Sewer Fund, it is anticipated that there may be a small rate increase in 2016 to ensure the rate structure is sufficient to cover all operating and capital costs. For the Community Center Fund, the rate structure for member passes can be revised should revenue fall short of expenditures. The Community Center also periodically revises its services and programs to generate additional revenue.

Statement of Revenues, Expenditures, and Changes in Fund Balances
Governmental Funds (Continued)
For the Year Ended December 31, 2015

**Reconciliation of the change in fund balances - total governmental funds
to the change in net position of governmental activities:**

Net Change in Fund Balances - Total Governmental Funds \$ (2,182,949)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets:

Capital Asset Purchases Capitalized	2,292,458
Depreciation Expense	(2,785,348)

The following changes in long-term liabilities affect expenses in the Statement of Activities, but are not reflected in the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds:

Liability for Compensated Absences	69,251
Net Other Post-employment Benefits Obligation	(1,637,342)
Net Pension Liability, Net of Related Deferred Outflows and Deferred Inflows	(545,710)

The change in accrued interest income that is not available to pay liabilities of the current period does not represent available spendable financial resources, and is therefore not reported in the funds	43,251
---	--------

The change in deferred inflow of resources for earned income taxes collected beyond 90 days of year-end is reflected in the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds, but does not affect revenues recognized in the Statement of Activities	<u>(387,805)</u>

PLYMOUTH TOWNSHIP, PENNSYLVANIA
Notes to the Basic Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Township’s financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

A. Financial Reporting Entity

As required by GAAP, these financial statements present the Township (the “primary government”); and any component units for which the Township appointed a voting majority of the component units’ board, the Township is either able to impose its will on the component unit, or a financial benefit or burden relationship exists. The Township’s financial reporting entity is comprised of the following:

Primary Government:	Plymouth Township
Discretely Presented Component Units:	Plymouth Township Parks, Recreation and Facilities Fund (Nonprofit Entity) Harmonville Fire Company Plymouth Fire Company

Blended component units are separate legal entities that meet the component unit criteria described above and whose governing body is the same or substantially the same as the Township Council or the component unit provides services entirely to the Township. Discretely presented component units are separate legal entities that meet the component unit criteria described above but do not meet the criteria for blending.

Plymouth Township Parks, Recreation and Facilities Fund is a nonprofit entity that was established to solicit and receive contributions from persons, corporations, foundations, and other entities to be remitted to the Township for the sole purpose of applying such contributions to the payment of the cost of acquisition of open space, park land, and recreation facilities and to the payment of the cost of the improvement, maintenance, and operation of the parks and recreational facilities, including the Greater Plymouth Community Center. Complete financial statements of Plymouth Township Parks, Recreation and Facilities Fund can be obtained from the Township. Harmonville Fire Company and Plymouth Fire Company both serve Township residents. The Township contributes monies to and secures loans for both fire companies. Complete financial statements of the fire companies can be obtained from their administrative offices.

The East Norriton-Plymouth-Whitpain Joint Sewer Authority (the “Sewer Authority”) is not a component unit of the Township, but rather a Joint Venture in accordance with GASB Statement No. 14. The Sewer Authority owns and operates the sewer plants and lines in the three consenting localities. As it is an operating authority, Property, Plant, and Equipment are recorded in the financial statements of the Sewer Authority. Since the Township does not have an equity interest in

the net resources of the Sewer Authority, but instead has only a residual interest upon dissolution, the Township does not reflect any equity in the Sewer Authority in these financial statements.

Selected financial information for the Sewer Authority for their fiscal year ended December 31, 2015 is as follows:

Total Assets	\$ 31,887,572
Total Net Position	11,025,906
Total Operating Revenues	3,269,455

Complete financial statements for the Sewer Authority can be obtained from their administrative offices.

The financial statements of the Plymouth Community Ambulance Association are excluded from the financial statements of Plymouth Township since the Township's contribution to the total revenues of the Association each year is relatively insignificant, and therefore a financial interdependence is not evident. Hence, the Plymouth Community Ambulance Association does not qualify as a component unit.

B. Basis of Presentation

Government-wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Township or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

In addition, any other fund that government officials feel has importance to financial statement users may be reported as a major fund.

The funds of the financial reporting entity are described below:

Governmental Funds (All classified as major funds)

- General Fund – The General Fund is the primary operating fund of the Township and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.
- Capital Reserve Fund – The Capital Reserve Fund is used to account for resources designated for the acquisition or construction of specific capital projects or items.
- Highway Aid Fund – The Highway Aid Fund is used to account for the proceeds of state grants earmarked for highways and streets.
- Health and Welfare Fund – The Health and Welfare Fund is used to account for the payment of health and disability insurance premiums for Township employees and retirees.

Proprietary Funds (All classified as major funds)

- Sewer Revenue and Reserve Fund – The Sewer Revenue and Reserve Fund accounts for the proceeds of sewer rentals and payments for sewage treatment.
- Greater Plymouth Community Center – This fund accounts for the operations of the Greater Plymouth Community Center, which is a recreational facility that benefits people residing or working in and around Plymouth Township.

Fiduciary Funds (Not included in government-wide statements)

The Township's fiduciary funds are comprised of funds held in trust for employees and agency funds used to account for assets held by the Township in a purely custodial capacity.

The following funds are held in trust for employees:

- Police Pension Trust Fund – The Police Pension Trust Fund accounts for annual contributions, investment earnings, and benefit payments to retired police officers.
- Deferred Retirement Option Plan (DROP) Trust Fund – the Deferred Retirement Option Plan (DROP) Trust Fund accounts for annual contributions and related investment earnings for the benefit of certain Township employees who have elected to defer their retirement.
- Non-Uniformed Employees' Pension Trust Fund – The Non-Uniformed Employees' Pension Trust Fund accounts for annual contributions, investment earnings, and benefit payments to retired non-uniformed employees.
- Post-Retirement Healthcare Fund – The Post-Retirement Healthcare Fund was established in 2003 to fund future health insurance premiums for retired employees.

- Deferred Compensation Fund – The Deferred Compensation Fund accounts for Township employees’ salary deferrals. These funds are not available to the employees until termination, death, retirement, or an unexpected emergency.

Since agency funds are custodial in nature (i.e., assets equal liabilities), they do not involve the measurement of results of operations. The Township’s agency fund consists of the following funds:

- Escrow Fund – The Escrow Fund accounts for money received and reserved for potential future costs to be incurred by the Township resulting from engineering or other costs involved in development. These funds are recorded as returnable deposits on the Statement of Fiduciary Net Position. This fund also accounts for real estate taxes paid in protest.
- Real Estate Tax Collector’s Fund – The Real Estate Tax Collector’s Fund accounts for collections and remittances of real estate taxes to Montgomery County and Plymouth Township.
- Payroll Fund – The Payroll Fund accounts for various payroll related withholding amounts for Township employees. The payroll fund handles the disbursing of such amounts withheld from the employees to other agencies on their behalf (taxes, retirement contributions, etc.).

C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined in item b. below. In addition, the component units are presented using the economic resources measurement focus.

In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate:

- a. All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary funds and the fiduciary funds utilize an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

- c. The fiduciary funds utilize an “economic resources” measurement focus. The accounting objectives are the determination of changes in net position. All assets and liabilities (except for certain liabilities of defined benefit pension plans and certain postemployment health care plans) are reported. Fiduciary fund equity is classified as net position.
- d. Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.
- e. The component units are not presented in the fund financial statements, since the component units’ funds are not blended into those of the Township’s.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. The Harmonville Fire Company and the Plymouth Fire Company, included in the presentation of the component units, utilize the modified cash basis of accounting, which is a comprehensive basis of accounting that is not in conformity with generally accepted accounting principles. Under this method, revenues are recorded when received and expenditures are recorded when paid. However, the effects of utilizing the modified cash basis of accounting instead of the modified accrual basis are deemed immaterial to the financial statements.

In the fund financial statements, governmental funds and agency funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers real estate tax revenues to be available if collected within sixty days of the end of the fiscal year, and earned income and local services tax revenues to be available if collected within ninety days of the end of the fiscal year. Expenditures (including capital outlays) are recorded when the related fund liability is incurred.

All proprietary funds and fiduciary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

D. Assets, Liabilities, and Equity

Cash and Investments

Cash and cash equivalents of the primary government and the discretely presented component units include amounts in demand deposits, money market funds, and amounts deposited with the Pennsylvania Local Government Investment Trust. Investments are stated at fair market value.

Pooled Cash and Investments

The Township maintains an internal cash and investment pool to facilitate efficient cash management and accounting. Monies that can be legally or practically combined are included in the pool. Receipts from member funds increase their equity in the pool and disbursements made on behalf of member funds reduce their equity. Interest earned on investments is distributed to funds for which there is a legal requirement to do so, based on their share of equity in the pool.

Interfund Receivables and Payables

During the course of operations, loans may occur between individual funds for working capital purposes. In the government-wide financial statements, these receivables and payables are classified as “Internal Balances” or “Other Current Assets” in the current assets section of the Statement of Net Position. In the fund financial statements, these receivables and payables are classified as “Interfund Receivables” or “Interfund Payables.”

Capital Assets

The accounting treatment for capital assets (land, buildings and improvements, machinery and equipment, and infrastructure) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-wide Financial Statements

In the government-wide financial statements, capital assets are reported as noncurrent assets. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable. Prior to 2003, the Township’s governmental fund infrastructure assets were not capitalized. These assets have been valued at estimated historical cost.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets’ estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	45 years
Machinery and Equipment	5-15 years
Infrastructure	15-50 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental funds upon acquisition. Capital assets used in proprietary fund operations are reported as noncurrent assets.

Long-term Debt

The accounting treatment of long-term debt depends on whether the debt relates to governmental fund operations or proprietary fund operations.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in the government-wide financial statements. As of December 31, 2015, the long-term debt consists of accrued compensated absences, net other post-employment benefits, and net pension liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. Any debt proceeds are reported as other financing sources and any payment of principle and interest is reported as expenditures. The accounting for the proprietary funds is the same in the fund financial statements as it is in the government-wide financial statements.

Compensated Absences

Vacation Days

Up to ten unused vacation days are allowed to be carried forward to the following year for non-union employees. The liability for unused vacation days for these employees is included in accrued expenses in the government-wide financial statements. Since it is estimated that no expendable available financial resources will be used to pay for unused vacation days, no accrued liability is recorded in the fund financial statements.

Sick Days

Sick leave is granted as appropriate. Non-unionized employees and unionized sworn police officers may not carry unused sick leave days from year to year. However, employees who are members of the American Federation of State, County, and Municipal Employees (“AFSCME”) are entitled to 80 hours of sick leave per year, and may carry over unused sick leave days from year to year. Accumulated sick time for these employees shall be paid upon retirement to a maximum of 480 hours.

The liability for these compensated absences is recorded as long-term debt in the government-wide statements. Since it is estimated that no expendable available financial resources will be used to pay for unused sick days, no accrued liability is recorded in the fund financial statements.

Equity Classifications

Government-wide Financial Statements

Equity is classified as net position and can be displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

- b. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – All other net position that does not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Fund Financial Statements

The Township classifies governmental fund balances as follows:

- a. Non-spendable – includes fund balance amounts that cannot be spent either because the amounts are not in spendable form or are legally or contractually required to be maintained intact.
- b. Restricted – includes fund balance amounts that are restricted to specific purposes by external parties or by law through constitutional provisions or enabling legislation.
- c. Committed – includes fund balance amounts that can only be used for specific purposes due to formal action of the Township’s highest level of decision-making authority, which is the Plymouth Township Council. Committed fund balance may also include resources that have been specifically committed for use in satisfying contractual requirements.
- d. Assigned – includes fund balance amounts that are constrained by the Township’s intent to be used for specific purposes, but are not restricted or committed.
- e. Unassigned – includes the residual classification of fund balance of the General Fund, whether the amount is positive or negative. Other governmental funds may report negative unassigned fund balance if their expenditures exceed the amounts restricted, committed, or assigned to their fund purposes.

When both restricted and unrestricted resources are available for use, it is the Township’s policy to use restricted resources first and then unrestricted resources as they are needed. The Township does not have a minimum fund balance policy for its general fund.

E. Revenues, Expenditures, and Expenses

Government-wide Financial Statements

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities. Expenses for employee benefits are not allocated by function, but instead are shown as a separate function. Revenues are categorized as program revenues by function, or as general revenues.

Program Revenues

Program revenues reported in the Statement of Activities are classified into the following categories: (a) Charges for Services, (b) Operating Grants and Contributions, and (c) Capital Grants and Contributions.

Charges for services for governmental activities include licenses and permits and such services as inspection services and special duty police. Charges for services for business-type activities include sewer fees and special assessments for the sewer operations, and membership and program fees for the Greater Plymouth Community Center.

General Revenues

General revenues include all revenues and gains that do not meet the definition of program revenues, and include primarily taxes, grants, and contributions not restricted to specific programs, and unrestricted investment earnings.

Fund Financial Statements

In the fund financial statements, expenses are categorized by function. All revenues are listed together in arriving at total revenues for each fund.

Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds are those that result from providing services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities.

Real Estate Taxes

The tax on real estate in Plymouth Township for 2015 was 1.6 mills (\$1.60 per \$1,000 of assessed valuation) as levied by Council. Assessed valuations of property are determined by Montgomery County, and the tax collector is responsible for collection. The schedule for real estate taxes levied for 2015 was as follows:

February 15, 2015	- Levy Date
February 15 - April 15, 2015	- 2% Discount Period
April 16 - June 15, 2015	- Face Payment Period
June 16 - January 14, 2015	- 10% Penalty Period
January 15, 2016	- Lien Date

Interfund Transfers

Permanent reallocations of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated.

F. Subsequent Events

Management has evaluated subsequent events through August 5, 2016, which is the date the financial statements were available to be issued.

G. New Accounting Pronouncements

Beginning with the year ended December 31, 2015, the Township has adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The objective of this statement is to improve accounting and financial reporting by state and local governments for pensions. The effects of implementing this statement are reflected in the entity-wide financial statements, the Notes to the financial statements, and in the presentation of certain required supplementary information. The effects on the net position of the governmental activities are described in Note 20.

2. CASH AND INVESTMENTS

Cash

The carrying amount of the Township's cash deposits in these financial statements is \$11,479,325 and the bank balance is \$11,937,029. The total bank balance of \$11,937,029 consists of \$7,962,615 held in checking and savings accounts and \$3,974,414 held in Pennsylvania Local Government Investment Trust ("PLGIT") accounts. Bank deposits totaling \$537,383 are covered by federal depository insurance, and \$7,425,232 is uninsured but secured by U.S. Government-backed investments or secured on a pooled basis. The PLGIT portfolios may contain a combination of obligations of the U.S. government or its agencies, obligations of the Commonwealth of Pennsylvania or its agencies, Federal securities subject to repurchase obligations (collateralized by U.S. Treasury or Federal Agency or instrumentality obligations held by the Trust's Custodian), FDIC insured certificates of deposit (CDs), CDs secured by U.S. Government-backed investments or secured on a pooled basis, or shares of Registered Money Market Funds which invest solely in the securities described above and which are rated in the highest capacity by a nationally recognized rating agency.

The carrying amount of discretely presented component unit deposits is \$1,638,777 and the bank balance is \$1,655,023. Bank deposits totaling \$1,121,412 are covered by federal depository insurance, and deposits totaling \$518,682 are uninsured.

The Township has not formally adopted deposit and investment policies that limit the government's allowable deposits or investments and addresses the specific types of risk to which the government is exposed. However, the Township complies with the First Class Township Act of Pennsylvania.

Investments

The Township's investments may be categorized as either (1) insured or registered or for which the securities are held by the Township or its agent in the Township's name, (2) uninsured and unregistered for which the securities are held by the broker's or dealer's trust department or as an agent in the Township's name, or (3) uninsured and unregistered for which the securities are held by the broker or dealer, or by its trust department or as an agent but not in the Township's name. Investments of the Township and its discretely presented component units are summarized below.

3. TAXES RECEIVABLE

Taxes receivable on the Statement of Net Position and the Balance Sheet – Governmental Funds at December 31, 2015 consists of the following:

Earned Income Tax	\$ 1,990,000
Local Services Tax	370,000
Solid Waste Tax	316,154
Real Estate Taxes	34,710
Total	<u>\$ 2,710,864</u>

Presentation in District-wide Financial Statements

Since all taxes receivable as of December 31, 2015 are deemed collectible, the entire balance of \$2,710,864 is reported as Taxes Receivable on the Statement of Net Position.

Presentation in Fund Financial Statements

Since earned income and local services taxes collected beyond ninety days of year-end do not represent current financial resources, the related receivables are offset by an amount reported as deferred inflows of resources on the Balance Sheet – Governmental Funds. Accordingly, included in deferred inflows of resources is earned income and local services taxes receivable expected to be collected beyond ninety days of year-end, totaling \$286,121.

4. OTHER RECEIVABLES

Governmental Activities and Funds

Other receivables totaling \$187,632 include the following:

CATV Franchise Fees	\$ 85,517

8. DEFERRED INFLOWS OF RESOURCES

Government-wide Financial Statements

As described in Note 13, as of December 31, 2015, the Township reported deferred inflows of resources totaling \$910,449 for the net difference between expected and actual experience related to the pension plans.

Fund Financial Statements

Deferred inflows of resources on the Balance Sheet – Governmental Funds, totaling \$286,121 as of December 31, 2015, represent earned income and local services taxes receivable that do not represent available spendable financial resources as of December 31, 2015.

9. LONG-TERM DEBT

The reporting entity's long-term debt is segregated between the amounts to be repaid from governmental activities, amounts to be repaid from business-type activities, and amounts to be repaid by the discretely presented component units.

Governmental Activities

Debt includes the entire liability for compensated absences totaling \$328,343, as well as the Township's net other post-employment benefits obligation and net pension liability.

Business-type Activities

As of December 31, 2015, there is no long-term debt attributable to business-type activities.

Changes in Long-Term Debt

The following is a summary of changes in long-term debt for the year ended December 31, 2015:

10. INTERFUND BALANCES AND TRANSFERS

Transfer from the Sewer Fund to the General Fund

During the year ended December 31, 2015, the Township transferred \$268,466 from the Sewer Fund to the General Fund to reimburse the General Fund for costs incurred such as salaries, benefits, and other operating costs.

Presentation in Government-wide Financial Statements

The transfer is included in the Statement of Activities as a transfer between governmental activities and business-type activities.

Presentation in Fund Financial Statements

The transfer is included in the Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds as Other Financing Sources, and is included in the Statement of Revenues, Expenses, and Changes in Fund Net Position – Proprietary Funds as a Transfer Out.

Transfer from the Greater Plymouth Community Center to the Capital Reserve Fund

During the year ended December 31, 2015, the Township transferred \$90,000 from the Greater Plymouth Community Center to the Capital Reserve Fund for capital projects.

Presentation in Government-wide Financial Statements

This transfer is included in the Statement of Activities as transfers between governmental activities and business-type activities.

Presentation in Fund Financial Statements

The transfer is reflected in the Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds as Other Financing Sources, and is included in the Statement of Revenues, Expenses, and Changes in Fund Net Position – Proprietary Funds as Transfers Out.

Other Transfers

In addition, the following interfund transfers between governmental funds are reflected on the Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds, but have been eliminated in the presentation of the government-wide Statement of Activities:

<u>Transferred From</u>	<u>Transferred To</u>	<u>Purpose</u>	<u>Amount</u>
General Fund	Capital Reserve Fund	Future capital needs of the Township	\$ 500,000
General Fund	Capital Reserve Fund	Future capital needs of Harmonville and Plymouth fire companies	200,000
General Fund	Health and Welfare Fund	Life insurance, hospitalization, and related benefits	4,123,882

Interfund Balances

Credit card receipts belonging to the Greater Plymouth Community Center are deposited into a general fund checking account before being transferred to the Community Center, resulting in temporary interfund balances.

Interfund balances at December 31, 2015 were as follows:

<u>Due From</u>	<u>Due To</u>	<u>Amount</u>
General Fund	Greater Plymouth Community Center	\$ 87,465

Presentation in Government-wide Financial Statements

The interfund balances between governmental and business-type activities are reflected in the Statement of Net Position as internal balances within the current assets section.

Presentation in Fund Financial Statements

All interfund balances are reflected as interfund receivables or payables on the appropriate fund balance sheets.

11. CONTRIBUTIONS TO COMPONENT UNITS

During the year ended December 31, 2015, the Township made cash donations totaling \$900,577 to Harmonville Fire Company and \$576,322 to Plymouth Fire Company.

Presentation in Government-wide Financial Statements

In the Statement of Activities, the contributions to the fire companies are included in Public Safety expenses of the Governmental Activities of the primary government, and are included in Operating Grants and Contributions of the fire companies.

Presentation in Fund Financial Statements

In the Statement of Revenues, Expenditures, and Changes of Fund Balances – Governmental Funds, the contributions to the fire companies are included in Public Safety expenditures of the General Fund.

13. EMPLOYEE PENSIONS

Plan Descriptions

The Township administers two single-employer defined benefit pension plans: The Police Pension Plan and the Non-Uniformed Employees' Pension Plan. These plans cover all full-time employees and provide retirement benefits to members. Plan provisions are established by Township ordinance with the authority for contributions required by Act 205 of the Commonwealth of Pennsylvania (the "Commonwealth").

As of December 31, 2015, the number of participants in each plan was as follows:

	<u>Police</u>	<u>Non-Uniformed Employees</u>
Participants:		
Active Participants	41	75
Non-active Participants	<u>36</u>	<u>55</u>
Totals	<u>77</u>	<u>130</u>

Eligibility Requirements

Police Pension Plan

Each member of the police force of the Township is covered by the Police Pension Plan. The Normal Retirement Date is the last day of the month in which the member attains age 52 and completes 25 years of service. A member may elect to retire early if he or she completes 20 years of service, but before his or her Normal Retirement Date (other than for death or permanent disability). Each member, who leaves the service of the Township for any reason after 12 years of continuous service but before he or she is entitled to either Early or Normal Retirement, will receive a vested Accrued Monthly Pension based on service and Average Monthly Earnings at date of termination, payable at his or her Normal Retirement Date.

Non-uniformed Employees' Pension Plan

All full-time employees of the Township, except for participants of the police force, are covered by the Non-Uniformed Employees' Pension Plan. The Normal Retirement Date is the last day of the month in which the member attains age 62 and completes 5 years of service. A member may elect to retire early if he or she attains age 50 and completes 10 years of service. Each member who leaves the service of the Township for any reason before he or she is entitled to either Early or Normal Retirement will receive a vested Accrued Monthly Pension based on service and Average Monthly Earnings at date of termination, payable at age 62 if he or she has completed at least 5 years of service with the Township.

Retirement Benefits

Police Pension Plan

The Police Pension Plan provides normal retirement benefits, early retirement benefits, job-related disability benefits, and survivor benefits. In addition, the Police Pension Plan provides for

Deferred Retirement Option Plan (DROP) benefits, whereby any police officer who has completed 25 years of Credited Service and attained age 52 may enter into a DROP arrangement. Such an arrangement may run no less than 12 months and no more than 60 months.

If a member's employment with the Township is terminated before Normal Retirement Date (other than by disability or vested termination), the member shall receive a lump sum amount equal to the member's aggregate contributions plus interest at a rate of 4% per year.

Non-Uniformed Employees' Pension Plan

The Non-Uniformed Employees' Pension Plan provides normal retirement benefits, early retirement benefits, job-related disability benefits, and survivor benefits.

Summary of Significant Accounting Policies

Fiduciary Fund

The pension plans utilize the accrual basis of accounting. The pension plans are reflected as fiduciary funds in these financial statements; however, separate financial statements for the pension plans are not issued. Employer contributions are recognized when due as required by Act 205 of the Commonwealth. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

Governmental Fund Financial Statements

Governmental funds utilize the modified accrual basis of accounting. Employer contributions are recognized when due as required by Act 205 of the Commonwealth.

Government-wide Financial Statements

As described in Note 1, beginning with the year ended December 31, 2015, the Township has adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. In accordance with GASB Statement No. 68, the Township reports its net pension liability in the Statement of Net Position.

Investments

Investments are reported at fair market value. Securities traded on national exchanges are valued at the last reported sales price. Investments of the pension funds are represented by specific identifiable investment securities classified as to credit risk by the three categories described below:

Category 1 – Insured or registered, or securities held by the Pension Fund or its agent in the Pension Fund's name.

Category 2 – Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the Pension Fund's name.

Category 3 – Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent, but not in the Pension Fund's name.

The investments of the pension funds consist of mutual funds, representing “category 3” investments.

Plan Investments

Summary by Type

Investments held as of December 31, 2015 are summarized as follows:

Rate of Return

For the year ended December 31, 2015, the annual money-weighted rate of return on the Police Pension Plan investments was 0.84%. For the year ended December 31, 2015, the annual money-weighted rate of return on the Non-Uniform Employee's Pension Plan was also 0.84%. The money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested.

Administrative costs, including investment services, custodial, trustee, and actuarial services are charged to the appropriate plan and funded from investment earnings.

Contributions and Funding Policy

Act 205 of the Commonwealth requires that annual contributions be based upon the Minimum Municipal Obligation (MMO). The MMO is based upon the plan's biennial actuarial valuation. The State provides an allocation of funds that must be used for pension funding. Any financial requirement established by the MMO which exceeds the State and employee contributions must be funded by the employer in accordance with Act 205.

Contributions to the Police Pension Trust Fund for 2015 totaled \$1,208,120 from the Township and \$329,350 from the Commonwealth (together totaling \$1,537,470), as well as \$141,296 from employees. Contributions to the Deferred Retirement Option Plan (DROP) Trust Fund for 2015 totaled \$339,744 from employees. Contributions to the Non-Uniformed Employees' Pension Plan for 2015 totaled \$285,369 from the Township and \$282,300 from the Commonwealth (together totaling \$567,669). The components of the MMO for 2015 are as follows:

	Police <u>Pension Plan</u>	Non-uniformed Employees' <u>Pension Plan</u>
Normal Cost	\$ 1,115,051	570,463
Administrative Expenses	102,000	66,000

Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liabilities were measured as of December 31, 2015, and the total pension liability was determined by rolling forward the liabilities from an actuarial valuation as of January 1, 2015. No significant events or changes in assumptions occurred between the valuation date and the fiscal year end. The components of the changes in the total pension liability, plan fiduciary net position, and net pension liability of the Police Pension Plan for the year ended December 31, 2015 are as follows:

	Total Pension <u>Liability</u>	Plan Fiduciary <u>Net Position</u>	Net Pension <u>Liability</u>

In the government-wide financial statements for the year ended December 31, 2015, the Township recognized pension expense totaling \$1,605,463 for the Police Pension Plan and \$1,045,386 for the Non-Uniformed Employees' Pension Plan. As of December 31, 2015, the Township reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Net Difference between Projected and Actual Investment Earnings	\$ 2,581,401	\$ -

Actuarial Assumptions

In accordance with regulations under Act 205 of 1984, all actuarial assumptions are selected jointly by the actuary and the governing body of the pension plan. Significant actuarial assumptions are presented on the following page.

	<u>Police Pension</u>	<u>Non-uniformed Employees Pension</u>
Actuarial Valuation Date	1/1/15	1/1/15
Actuarial Cost Method	Entry Age Normal	Entry Age Normal
Amortization Method	Level Dollar - Closed	Level Dollar - Closed
Remaining Amortization Period	7 Years	N/A
Asset Valuation Method	Adjusted Market Basis	Adjusted Market Basis
Investment Rate of Return	7.00%	7.00%
Projected Salary Increase	5.00%	4.00%
Inflation	3.00%	3.00%
Cost-of-living Adjustment	3.00%	3.00%
Retirement Age	Normal retirement age or at attained age plus 1 year, if later	Normal retirement age or at attained age plus 1 year, if later
Mortality Rates	RP-2000 Combined Healthy Mortality Table with Blue Collar Adjustment with Scale AA Projected to 2015	RP-2000 Combined Mortality Table with Blue Collar Adjustment with Scale AA Projected to 2015

Actuarial assumptions are based on experience with pension plans statewide and standard nationwide mortality tables. Due to the size of the plan, actuarial experience studies are not considered credible and are not performed for the plan.

Changes in assumptions beginning for the year ended December 31, 2015 for both plans included the following:

- For the Police Pension Plan, the mortality table changed from the RP-2000 Combined Healthy Mortality Table with Blue Collar Adjustment to the RP-2000 Combined Healthy Mortality Table with Blue Collar Adjustment with Scale AA projected to 2015.
- For the Non-union Employees' Pension Plan, the post-retirement mortality table changed from the 1983 Group Annuity Mortality Table for Males and Females for Healthy Lives and the 1984 Unisex Pension Mortality Table, set forward one year for males and set back four years for females, for disabled lives, to the RP-2000 Combined Mortality Table with Scale AA projected to 2015.

The long-term expected rate of return on pension plan investments was determined using historical investment returns.

Discount Rate

The discount rate used to measure the total pension liability was 7% for the Police Pension Plan and 7% for the Non-Uniformed Employees' Pension Plan. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Township contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the pension plans, calculated using the discount rate of 7%, as well as what the net pension liabilities would be if it were calculated using a discount rate that is 1-percentage-point lower (6%) or 1-percentage-point higher (8%) than the current rate:

	1% Decrease <u>(6%)</u>	Current Discount <u>Rate (7%)</u>	1% Increase <u>(8%)</u>
Net Pension Liability (Surplus):			
Police Pension	\$ 7,862,576	\$ 2,992,656	\$ (1,058,950)
Non-uniformed Employees Pension	3,960,725	1,123,939	(1,265,144)

14. DEFERRED COMPENSATION FUND

The Township offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all Township employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unexpected emergency. The plan is administered by ICMA Retirement Corporation.

The Township has a fiduciary responsibility, and must exercise due care as required of any other ordinary prudent investor.

15. POST-RETIREMENT BENEFIT PLAN

The Township provides post-retirement health care insurance to employees who retire from the Township who meet certain minimum age and service requirements. During 2003, the Township established the Post-Retirement Healthcare Fund (a fiduciary fund) to help fund future health insurance premiums for retired employees. The Township implemented GASB Statement 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, prospectively, effective January 1, 2008.

Plan Description

The Plan is a single-employer defined benefit plan for which the provisions are established by Township ordinance. The Plan does not issue a stand-alone financial report. The following is a summary of plan benefits:

Eligibility

Police: Age 52 with 25 or more years of service

Non-uniformed union employees: Age 60 with 10 or more years of service, or age plus service equals 80

Non-uniformed non-union employees: Age 60 with 10 or more years of service, or age plus service equals 80 for employees hired prior to July 1, 2011; age 60 with 25 years of service for employees hired after June 30, 2011

Medical Benefits – Police and Non-Uniformed Employees

Pre-Medicare eligibility: The Township pays the full cost of the same medical benefits as are offered to active employees.

Post-Medicare eligibility: The Township provides a group HMO plan which is supplemental to Medicare.

Duration of Medical Benefits

Police: Coverage will continue for the life of the retiree and spouse. Eligible dependent children are covered until age 26.

Non-uniformed employees: For unionized retirees, coverage will continue for the life of the retiree, and spouse coverage continues to Medicare eligibility. Dependents are covered as long as they are eligible. For nonunionized retirees, coverage continues for the life of the retiree, and spouse coverage is limited to the lesser of 2.5 months for every year of service or five years.

Benefits upon Disability

Police: Any police officer who becomes permanently disabled due to a work-related accident or illness is eligible for benefits for both himself (herself) and their spouse.

Non-uniformed employees: Employees must be eligible for retirement benefits to receive coverage upon disability.

Employee Contributions for Healthcare Coverage

Police: Police officers contribute 1% of their salary each year for post-retirement health care.

Non-uniformed employees: None, except three Medicare eligible individuals are required to contribute towards the cost (75% of the premium).

Life Insurance Benefits

Police: The Township provides life insurance of \$50,000 for death before age 65, and \$15,000 for death after age 65.

Non-uniformed employees: None

Funding Policy

Although the Township established the Post-Retirement Healthcare Fund (a fiduciary fund) to help fund future health insurance premiums for retired employees, the Plan is effectively financed on a pay-as-you-go basis. Health care insurance premiums are paid from the Township's Health and Welfare Fund (a governmental fund).

In the fund financial statements, expenditures for post-retirement health care benefits are recognized as the insurance premiums are incurred. In the government-wide financial statements,

expenses for post-retirement health care benefits are recognized in the amount of the estimated increase in the net OPEB obligation. In the government-wide financial statements and the fund financial statements, the expenses/expenditures are included under the caption "Employee Benefits."

Annual OPEB Cost and Net OPEB Obligation

The Township's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the estimated annual OPEB cost for the year, the amount paid during the year towards the OPEB cost, and changes in the net OPEB obligation.

Annual Required Contribution (ARC)	\$ 2,700,503
Interest on ARC	189,035
Interest on Net OPEB Obligation	783,402
Adjustment to ARC	(926,590)
Annual OPEB Cost	<u>2,746,350</u>
Employer Contributions	<u>(1,109,008)</u>
Estimated Increase in Net OPEB Obligation	1,637,342
Net OPEB Obligation - Beginning of Year	<u>11,191,459</u>
Net OPEB Obligation - End of Year	<u><u>\$ 12,828,801</u></u>

The annual OPEB cost, the percentage of annual OPEB cost contributed and the net OPEB obligation for 2015 and the prior two years are as follows:

<u>Fiscal</u> <u>Year</u> <u>Ended</u>	<u>Annual</u> <u>OPEB</u> <u>Cost</u>	<u>Percentage of</u> <u>Annual OPEB</u> <u>Cost Contributed</u>	<u>Net</u> <u>OPEB</u> <u>Obligation</u>
12/31/2015	\$ 2,746,350	40.4%	\$ 12,828,801
12/31/2014	2,555,588	23.2%	11,191,459
12/31/2013	2,628,332	26.0%	9,228,448

Funded Status and Funding Progress

As of January 1, 2015, the most recent actuarial valuation date, the plan was 49.1% funded. The actuarial accrued liability for benefits was \$38,370,532, and the actuarial value of assets was \$18,857,957, resulting in an unfunded actuarial accrued liability (UAAL) of \$19,512,575. The participants valued as of January 1, 2015 included 118 active employees and 60 retirees and spouses. Annual covered payroll totals approximately \$9.1 million, and the ratio of the unfunded actuarial liability to annual covered payroll as of January 1, 2014 was approximately 196%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. Projections of benefits for financial reporting purposes do not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities, consistent with the long-term perspective of the calculations.

In the January 1, 2015 actuarial valuation, the actuarial cost method used was the Entry Age Normal method with level-dollar Normal Cost. The actuarial assumptions included a 7% investment rate of return, which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 8.5% for 2015, reduced by decrements to an ultimate rate of 5.5% in 2021. The actuarial value of assets represents the total market value of cash and investments of the Post-Retirement Healthcare Fund as of December 31, 2014. The UAAL is being amortized over 30 years on a straight-line (level dollar) basis. The remaining amortization periods at December 31, 2014 ranged from 24 to 30 years.

16. LEASE AGREEMENT – EAST NORRITON-PLYMOUTH-WHITPAIN JOINT SEWER AUTHORITY

Under an agreement dated October 5, 1959, the East Norriton-Plymouth-Whitpain Joint Sewer Authority (the Authority) agreed to make its sewage treatment plant available to Plymouth Township. Each township will collect a sewage treatment charge from the users, which shall be at rates high enough to cover operating expenses, etc., plus certain specified safety margins. Payments to the Authority in 2015 totaled \$1,360,191 and are included in Sewage Collection and Treatment expenses of the Sewer Revenue and Reserve Fund.

17. LEASE OF BASEBALL FIELD

The Township is the owner of certain real estate, which is referred to as the "Community Center Park." The Township has constructed an expansion of the Community Center Park consisting of a new baseball field, new softball field, bandshell, parking lot, and other amenities. Effective January 14, 2002, the Township entered into a lease with Villanova University, whereby Villanova University will lease the new baseball field on a nonexclusive basis for a term of 20 years. Rental payments are due as follows: \$500,000 during the first year of the lease, and an additional \$100 per year over the term of the lease. Rental income is being recognized over the term of the lease on a straight-line basis, as follows:

Total First-Year Rental (Exclusive of Annual Rent of \$100)	\$ 500,000
Portion of Rental Recognized through 2015	<u>(350,000)</u>
Unearned Revenue as of December 31, 2015	<u>\$ 150,000</u>
Recognition of Unearned Revenue:	
<u>Year</u>	
2016	25,000
2017	25,000
2018	25,000
2019	25,000
2020	25,000
2021	<u>25,000</u>
Total	<u>\$ 150,000</u>

18. COMMITMENTS AND CONTINGENCIES

Grant Programs

The Township participates in state and federally assisted grant programs including State Highway Aid. These programs are subject to program compliance audits by the grantors or their representatives. The Township is potentially liable for any expenditures that may be disallowed pursuant to the terms of these grant programs.

Urban v. Plymouth Township

During the years 2007 through 2012, the Township applied for and received an H2O PA Program grant totaling \$1,000,000 to help fund certain sanitary storm water improvements (the "Project") within the Township. The Township is a defendant in a civil action brought by certain residents for which the Project was undertaken. The plaintiffs claim that the Township did not properly apply the grant funds, thereby causing them to be overcharged for their portion of the Project. The plaintiffs' total claim is for \$260,000.

The Township was successful in obtaining a Summary Judgment in the Lower Court. The matter is currently on appeal and Township management believes it is very unlikely that the Lower Court decision will be reversed.

Moyer Landfill Claim

The Township, among others, had been named as a defendant in a class action lawsuit alleging personal injury and loss of property values due to the disposal of hazardous waste at the Moyer landfill site.

At its public meeting on June 10, 1996, Council adopted a resolution approving a Consent Decree to authorize participation in a settlement trust agreement and a contribution of up to \$200,000 of Township funds. As of December 31, 1996, Plymouth Township had contributed the full payment of \$200,000 toward their share of the Consent Decree. However, part of the settlement agreement required the construction of a Leachate Plant to handle the waste remediation, for which the Township would be responsible for contributing 13.73% of any additional cost of construction and operation of this plant if total cost exceeded the original contribution.

As stated in the Consent Decree, the United States and the Commonwealth of Pennsylvania agreed that by entering into and carrying out its terms, each settler resolved its liability to the United States and the Commonwealth for matters addressed therein and is entitled to protection from claims for contributions. However, the United States and the Commonwealth of Pennsylvania have no obligation to defend any of the settlers in any suit or claim for contribution.

The settlement agreement was amended because the Department of Environmental Protection (“DEP”) and the Environmental Protection Agency (“EPA”) decided that construction of the Leachate Plant was not necessary, and that they would accept instead a monetary settlement of \$600,000. The amendment to the trust included a mutual release of all participating parties. The Consent Decree has been approved by the EPA and the DEP. The Township approved the Amended Consent Decree on August 5, 2002.

During 2002, the Township received \$89,635 from the trust fund, representing the Township’s share of the balance of the trust fund after the \$600,000 settlement payment. In January 2003 the Township received a “final refund” of \$3,448, representing its share of the remaining balance of the Moyer Landfill Settlement Trust Fund.

In March 2004, an Amendment to the Agreement inserting a \$55,000,000 cost re-opener was accepted by the parties. Accordingly, the Settlement Agreement could be re-opened if future costs exceed that amount. The EPA and the Court have approved the Amendment, and the matter has been settled pursuant to the Amended Consent Decree.

The Amended Consent Decree does not relieve the Township’s liability for information not known by the EPA or the DEP. In addition, the United States and the Commonwealth of Pennsylvania reserve certain rights to bring future actions against the Township and others mentioned in the Decree. Council has advised management that the cost overrun re-opener provision is not expected to be triggered, if at all, until approximately twenty years from now; and that if and when it is triggered, the share of additional costs allocated to the group of Settlers which includes the Township could be as low as 10% of the total cost overrun. Management believes that, even if the re-opener provision is triggered, given the number of parties involved, it will not have a material impact on the Township.

Property Tax Appeals

The Township is also involved in various property tax appeals that are being vigorously defended. At this time, the liability to return taxes under appeal, if any, cannot be reasonably estimated.

Other Claims

On May 16, 2005, the Pennsylvania Supreme Court rendered an opinion holding that municipalities cannot assess its legal fees to developers under the Pennsylvania Municipalities Planning Code (“MPC”). Effective January 31, 2005, the MPC was amended to provide that municipalities may assess its legal fees and receive reimbursement from developers. As a result, claims may be made for the refund of legal fees incurred in the review of subdivision and land development plans prior to January 31, 2005, and for the period of any applicable statute of limitations. No claims have yet been made.

Public Entity Risk Pools

In accordance with GASB Statement No. 30 issued in June 1996, the Township is presenting the following disclosures of public entity risk pools of which they are a member.

The Township is a member of The Delaware Valley Workers' Compensation Trust (the "Trust") which is a regional intergovernmental risk sharing pool formed on January 1, 1992. Authority for the Trust is granted by the Pennsylvania Intergovernmental Cooperation Law and Pennsylvania Workers' Compensation Act as amended. The Trust offers a method of funding and paying medical and indemnity obligations due municipal employees under the Pennsylvania Workers' Compensation Act. The Trust is a regional pool whose members are located in Southeastern Pennsylvania. The purpose and intent of the Trust is to provide an efficient and more cost effective alternative to commercial insurance and reduce both the frequency and severity of work-related injury and occupational disease claims. The Trust is a recognized entity regulated by the Pennsylvania Department of Labor and Industry, Bureau of Workers' Compensation and is governed by a Board of Trustees comprised of a representative from each member municipality. The Board of Trustees also elects Trustees to serve on an Executive Committee.

The Trust is funded by its member municipalities, and utilizes in-house claims adjustment. Members' contributions are assessed at the beginning of each year based on an independent actuarial study and are recognized as revenue in the year for which insurance protection is provided. Rates charged by the Trust are approved by the Pennsylvania Department of Labor and Industry, Bureau of Worker's Compensation on an annual basis.

Claims liabilities are based on losses reported, estimates of losses incurred but not yet reported, and claim service fees. Management has provided for estimated losses it believes are reasonable and reflective of anticipated ultimate experience. The Trust has limited historical claim experience data upon which to base an estimate of the ultimate liabilities. Additionally, as a result of the length of time required of the ultimate liabilities for losses to be determined, the amounts that will ultimately be paid to settle the liabilities may vary significantly from the estimated amounts provided for in the accompanying financial statements. Claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claims frequency, and other economic and social factors. Adjustments to claims liabilities resulting from such revisions are charged or credited to expense in periods in which they are made.

The Trust retains responsibility for the payment of claims under the self-insured loss retention limits of \$150,000 per occurrence prior to the application of coverage provided by its excess insurance contract.

The Trust is party to various claims and other matters arising in the normal course of business. In the opinion of the Trust's management, the outcome of these matters will not have a material adverse effect on the Trust's financial position or results of operations.

In addition, the Township is also a member of the Delaware Valley Insurance Trust (the "Trust"), formed in 1989. This is an association of several municipalities in Southeastern Pennsylvania, which form an intergovernmental risk-sharing pool under the authority granted by the Pennsylvania Intergovernmental Cooperation Act and the Pennsylvania Political Subdivision Tort Claims Governmental Immunity Act. The purpose of the Trust is to provide an efficient and more cost effective alternative to commercial insurance. The Trust is also intended to prevent and reduce

both the frequency and severity of casualty and property losses to member municipalities and injuries to persons or employees that might result in claims being made against such municipalities. In addition to insurance protection, the Trust provides risk management services, with an emphasis on loss control and claims administration. The Trust is governed by a Board of Trustees comprised of a representative from each member municipality. The Board of Trustees elects 5 Trustees to serve on an Executive Committee.

The Trust is funded by its member municipalities, and utilizes in-house claims adjustment. Each municipality is covered by the pool for the following risks: comprehensive general liability, business automobile liability, public officials' errors and omissions liability, police professional liability, real and personal property, and first party automobile physical damage only. Plymouth Township is covered for all the aforementioned risks. The Trust also purchases public employees blanket bond and crime coverage for the members with each new member required to make an initial contribution to the Trust upon admission. Thereafter, based on formulas set forth in the Trust Agreement, member contributions are assessed at the beginning of each year based on an actuarial study and are recognized as revenue in the year for which insurance protection is provided.

Claims liabilities are based on losses reported, estimates of losses incurred but not yet reported, and claim service fees. Management has provided for estimated losses it believes are reasonable and reflective of anticipated ultimate experience, but because of length of time required for the ultimate liabilities for losses to be determined the amounts that will ultimately be paid to settle the liabilities may vary significantly from the estimated amounts provided for in the Trust's financial statements. Claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency and other economic and social factors. Adjustments to claims liabilities resulting from such revision are charged or credited to expense in periods in which they are made.

The Trust retains responsibility for the payment of property, automobile liability, public officials' liability, general liability and law enforcement liability claims between the insured loss retention limits which range from \$100,000 to \$250,000, prior to the amount of excess insurance contracts from third party insurance carriers. Such contracts as property claims in excess of \$100,000 up to \$265,000,000 per occurrence, automobile liability claims in excess of \$250,000 up to \$10,000,000 per occurrence and public officials' liability claims in excess of \$250,000 up to \$2,000,000 annual aggregate per member.

The Trust is party to various claims and other matters arising in the normal course of business. In the opinion of management, the outcome of these matters will not have a material adverse effect on the Trust's financial position or results of operations.

19. EXCESS OF EXPENDITURES AND OTHER FINANCING USES OVER APPROPRIATIONS

Actual expenditures and other financing uses of the General Fund, totaling \$22,425,198, exceeded the fund's total budgeted expenditures and other financing uses of \$21,802,997, which resulted in an excess of expenditures and other financing uses over appropriations of \$622,201 for the year ended December 31, 2015. This excess occurred primarily because of a \$500,000 year-end transfer to the Capital Reserve Fund and because of successful Real Estate Tax assessment appeals which resulted in the payment of refunds exceeding \$100,000.

20. RESTATEMENT OF NET POSITION OF GOVERNMENTAL ACTIVITIES

Beginning with the year ended December 31, 2015, the Township has adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. To comply with GASB Statements No. 68 and No. 71, the net position of the governmental activities has been restated as of January 1, 2015 to include the actuarially-determined net pension liability as of December 31, 2014, as follows:

Net Position of Governmental Activities as of December 31, 2014, as Previously Reported	\$ 37,719,841
<u>Less: Net Pension Liability as of December 31, 2014</u>	<u>(585,366)</u>
Net Position of Governmental Activities as of December 31, 2014, as Restated	<u><u>\$ 37,134,475</u></u>

21. SUBSEQUENT EVENTS

On November 9, 2015, the Township Council approved Ordinance Number 1612 approving the issuance of a \$799,278 promissory note payable to the County of Montgomery for the financing of emergency radio equipment. The radio equipment was acquired by the County as part of a bulk purchasing agreement with Motorola. The County has made available interest-free (0%) financing to the participating municipalities through the Delaware Valley Regional Finance Authority (DVRFA). The promissory note will be serviced by Wells Fargo Bank and will be repaid by the Township over a period of five years. Although the promissory note is dated November 9, 2015, the radios had not been delivered as of December 31, 2015.

A payment of \$159,856 was transmitted by the Township to Wells Fargo National Bank on January 28, 2016. The payment was equal to one-fifth of the \$799,278 total communication equipment ordered by the Township.

Harmonville Fire Company, Plymouth Fire Company, and Plymouth Community Ambulance Association have agreed to reimburse the Township for their shares of the total costs over a five-year period.

The following is a summary of radio equipment purchased under the agreement with the County:

Harmonville Fire Company	78,756
Plymouth Fire Company	73,861
Plymouth Community Ambulance Association	<u>178,280</u>
