NEW: Pennsylvania Childcare Tax Credit

As I mentioned in my previous email regarding the recently enacted Commonwealth budget, Pennsylvania has established a new childcare tax credit. The goal of this program is to assist working families by helping to cover the rising costs of childcare. Ultimately, this will allow more parents and caregivers to remain in the workforce.

This will not only help working families but will also bring an economic benefit to our state's economy. Please [click here](#) for more information, and rest assured that I will continue to share details as the program is rolled out.

FAFSA Deadline Approaching

If you are looking to take the next step in your education or care for someone who is, please be advised that the deadline to submit a FAFSA application is quickly approaching on August 1st.

These grants are available for community college, a designated Pennsylvania Open Admission institution, a business, trade, or technical school, a hospital school of nursing, or a two-year program. Please make sure to take advantage of the federal and state grants available to you.
